

Conservation Treatment of a Seljuk Qur'an

Financial Report

The treatment of the Quran was carried out over a 6 month period and involved two people working a total of 102 days. With 7 working hours in an average work day, about 714 hours were spent on the treatment. (As we charge clients 70 TL per hour, the approximate market value of an equivalent treatment would be about 50,000 TL.)

Original budget estimates from the grant application:

Supplies for the treatment	250 TL (£103)
Travel between Istanbul and Ankara (10 roundtrips)	600 TL (£247)
Maintenance of two people for the project duration	<u>11,293 TL (£4650)</u>
TOTAL	12,143 TL (£5000)

Expenses:

Supplies for the treatment – leather, paper, adhesive	340 TL
Travel between Istanbul and Ankara (at least 10 roundtrips)	600 TL
Maintenance of two people for the project duration – rent, food, utilities, insurance, transportation from home to work	<u>11,203 TL</u>
TOTAL	12,143 TL (£5000)

We want to thank the Board of the Islamic Manuscript Association for their support of this project.
